

We live in Hope, AR and receive K-LOVE signals from three stations in Arkansas. K-LOVE is a very encouraging, uplifting station; although they do give brief news updates most of their time is spent playing Christian music. We believe it would take away from the quality of their programming if they were displaced by an LPFM broadcaster. They do a great service to our community and our nation. Families can listen to this station together, we never have to be afraid of what our children will hear. This may be the only place that some children hear Christian music and values. Please leave K-LOVE on the air as they are now!
